Thank you for purchasing Cino Universal Holder. It serves to protect the scanner from lens-scratched or falling, moreover, its artistic-design enhances the entire value of the scanner.

❖ Available Colors   : Gray and Black

❖ Applicable Models   : F430, F760 and F765

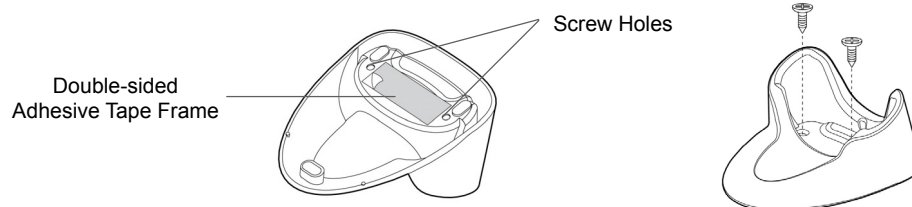

| F430 | F760/765 |

Mounting the Holder

At the bottom of this holder has been designed with three anti-slide pads for stable placement. You can place it or mount it on a desired flat surface. If you prefer the mounting approach, please refer to following details for proper installation.

Mounted by Screws

1. Place the holder on the desired flat surface.

2. Insert two M4 x 8~10mm flat head self-tapping screws into the holder.

3. Tighten the screws to secure the holder to the flat surface (Please refer to following pictures).

Mounted by Double-sided Adhesive Tape

1. Clean both surfaces where the double-sided adhesive tape will be applied.

2. Prepare one piece of double-sided adhesive tape (18mm x 50mm).

3. Attach one side of the double-sided adhesive tape to the specific frame at the bottom of the holder.

4. Remove the protective backing paper from the double-sided adhesive tape and fix the holder on the surface (Please refer to following pictures).

Screw Holes

Double-sided
Adhesive Tape Frame

p.s.   Screws and double-sided adhesive tape are not provided together with holder.
